DETAILED ACTION

1. This communication is in response to application's amendment received on 12/20/2004.

Response to Arguments

2. Applicant's arguments with respect to claims have been fully considered and are persuasive. The rejections of claims 30, 34, 35-39 and 63-68 have been withdrawn.

Allowable Subject Matter

3. Claim1-8, 11-30, 34-39 and 42-68 are allowed.

Regarding claims 1, 20, 40, 47, 53 and 62, the prior arts of record fail to teach or disclose a data acquisition and telemetry system as claimed in claim 1 comprising at least one probe configured for communication with at least one soil medium; and a reader; said reader configured for transmitting at least one excitation signal having at least an energy component to said at least one probe and including blocking circuitry for substantially preventing the at least one excitation signal from being received by the reader.

Regarding claims 30 and 63, the prior arts of record fail to teach a probe for use in conjunction with a reader to facilitate measurement of moisture content of soil as claimed in claim 1, which comprises at least one electronic circuit attached to said body and configured for operative communication with the soil, said at least one electronic circuit consisting essentially of a moisture sensing capacitor and an inductive loop, wherein an energy component of an excitation signal transmitted to the probe by the reader is sufficient to induce the at least one electronic circuit to resonate substantially

near a resonant frequency of the at least one electronic circuit, the resonant frequency being a data signal transmitted to the reader indicating the moisture content of the soil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung Q Dang whose telephone number is (571) 272-3069. The examiner can normally be reached on 9:30AM-6PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Horabik can be reached on (571) 272-3068. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
